### **ABSTRACT**

*Women empowerment is a debatable subject. At the earlier time they were getting equal status with men. But they had faced some difficulties during the post-Vedic and epic ages. Many a time they were treated as the slave. From early twenty-century (national movement) their statuses have been changed slowly and gradually. In this regard, we mentioned the name of the British people. After then, the independence of India, the constitutional makers, and national leaders strongly demand equal social position of women with men. Today we have seen the women occupied the respective positions in all walks of the fields. Yet, they have not absolutely freed some discrimination and harassment of the society. A few numbers of women have been able to establish their potentialities. Therefore, each and everyone should be careful to promote the women statuses.*
