ABSTRACT

“If you educate a man, you educate an individual. However, if you educate a woman you educate a whole family. Women empowered means mother India empowered”.—Pt. Jawaharlal Nehru

Education is one of the most important subjects of the development of the nation. So, to increase the human resources we need to develop education. But gender discrimination breaks to the increase in resources. And to be award of women, there must be adequate education. Empowerment of women needs to freely decided and in the interest of the overall development of the country. and needs to treat them equally with men.

In this article, the main issues of women education in India are highlighted. One of the main problems in education is Gender Bias. which has been criticized here. And some projects have been taken by the government to solve this problem. In the various project for solved problems of women as well as of girl child, the KanyashreePrakalpa is one of the best projects for providing education to girl child with helping money and resistance girl child marriage with dropout students.
